2006 PROJECT COMPLETION REPORT

2006 Project Title: Justice Reforms: Sustained Pre-reintegration
Referral Services

Responsible Party: Bureau of Jail Management and Penology

I. Completion Stage

Please be informed that as of this time we have already accomplished almost the entire project outputs indicated in our TOR except that of the proper launching of Justice Reforms: Sustained Pre-reintegration Referral Services at Bagong Buhay Rehabilitation Center – Female Dormitory, Cebu City, Region 7 and Davao City Jail – Female Dormitory, Davao City, Region 11. However, efforts were made to orient BJMP personnel coming from the above said Regions in the just concluded two-day seminar held at Femar Garden Resort and Convention Center, Taktak Road, Antipolo City. We are planning to formally launch the project in their respective jails before the year ends. We have already printed three thousand (3000) copies each of the twenty-page Classification and Assessment forms and have published 500 copies of BJMP IPRS Manual. For your perusal, please find the attached list of service providers; names of BJMP Personnel assigned in Pilot Jails, Regional Offices and National Headquarters Office; and the names of the 150 civilian PRS Volunteers.

II. Use of BJMP Project Outputs

Our recommendations as specified in our Target Outputs for the year 2006 have almost come into complete realization. The IPRS tools which will be used in the Assessment and Classification of inmates – Project beneficiaries - as well as the BJMP IPRS Manual have been printed to serve as guides in the implementation of the program. Service providers/NGOs, some Government Organizations and BJMP personnel were oriented as regards to the concept, importance and applicability of the project. The BJMP Inmate's Pre-reintegration Referral System (IPRS) which is being peddled by Justice Reforms: Sustained Pre-reintegration Referral Services has been officially launched at Quezon City Jail - Female Dormitory and is being newly implemented at Bagong Buhay Rehabilitation Center – Female Dormitory, Cebu City and at Davao City Jail – Female Dormitory, Davao City.

III. Factors that Affected Implementation

The availability of fund as well as the zeal of the BJMP IPRS Project Coordinator to put into realization the dream of decongesting our jails and helping inmates to help themselves transform into a more productive, God-fearing and law abiding citizen have facilitated the implementation of the project. However, we encounter some problems as to the timeframe of the program implementation due to the workloads of personnel who are being tasked, in addition to their duties, to execute the activities of program. Another contributory factor that posed a hindrance is the lack of clear-cut guidelines for the expenditure of the tranches assigned for the project.

IV. Evaluation of the Project Outputs vs. Multi-year Expected Outputs and Output Targets for 2005

After benchmarking our Project Outputs for the year 2006, we believe with all reasonableness that we have already accomplished, as of this date, almost ninety-five percent (95%) of what are expected from us for the year. The remaining five percent (5%), however, will be accomplished before the year ends. Having gone through the crucial stage of the project implementation, we believe with all certainty that we will be able to accomplish all expected outputs as indicated in our PTOR.

V. Indicative Progress of your project's Human Rights and Gender Mainstreaming

More than six thousand (6,000) arrested persons, men and women alike, were benefited by the "No commitment order, No acceptance policy" that is being implemented by the Bureau of Jail Management and Penology as part of the project's Human Rights and Gender mainstreaming activities. This policy, dealing mainly on the rights of arrested persons is being strictly implemented by all admitting officers of the BJMP Jails nationwide.

VI. Lessons Learned

If we were to implement the project all over again we would first establish an office just intended for the purpose and assign personnel thereat to work solely for the project's development and implementation. A clear-cut guideline from your office will be sought and primarily studied before beginning to spend UNDP's fund for the project.
